SPREAD THE WORK!

Lately a whole lot of new job opportunities have come available at Leiden Bio Science Park. As always, we list these at our [LBSP job board](#). However, currently there are so many that we give them some extra attention by sending you this jobsletter.

Please help the Park grow and send this to anyone you think that may be interested!

And of course, think about how it would be appreciated by the one you might be helping.

Thanks!
